TEST REPORT

Kemster/TF/09

Report No: KEM2007-G016	Report Date: 08.07.2020
Issued to:	Date of Sample Received: 04.07.2020
M/s Kalob Organics LLP	Date of Analysis: 04.07.2020
46-1, First Floor, Wazir Hassan Road,	Date of Completion: 08.07.2020
Lucknow-226001	Sample Particulars: Term-O-Salt Liquid (Trade Name)
Page no: 1 of 1	Sample Code: KEM202007G016

SI No	Parameters	Intrepretation	Test Method
1	Anti Effluorescence Test	In damp condition, harmful salts react with moisture and salte petre action takes place with the appearance of white patches on the walls. Salt formation will reduce the strength of the wall and damages the whole structure. TermOSalt has tested against the walls, bricks and found effective against the salt petre.	IS: 3495(Part 3)1992
2	Anti Termite Test	The layer of chemically treated soil acted as a repellant thus forming a barrier which kills or impervious to termite entry. The TermOSalt found effective against Termites.	IS: 6313(Part 3)2001
